**Passage:**

**Read the passage and answer the questions.**

The physical arrangement of the court, focused on the sovereign, mirrored his status as the heart of society. Its centerpiece was therefore the throne, the takht, which gave physical form to the function of the sovereign as axis mundi. The canopy, a symbol of kingship in India for a millennium, was believed to separate the radiance of the sun from that of the sovereign. Chronicles lay down with great precision the rules defining status amongst the Mughal elites. In court, status was determined by spatial proximity to the king. The place accorded to the courtier by the ruler was a sign of his importance in the eyes of the emperor. Once the emperor sat on the throne, no one was permitted to move from his position or to leave without permission. Social control in court society was exercised through carefully defining in full detail the forms of address, courtesies and speech which were acceptable in court. The slightest infringement of etiquette was noticed and punished on the spot. The forms of salutation to the ruler indicated the person's status in the hierarchy: deeper prostration represented higher status. The highest form of submission was sijda or complete prostration. Under Shah Jahan, these rituals were replaced with chahar taslim and zaminbos (kissing the ground). The protocols governing diplomatic envoys at the Mughal court were equally explicit. An ambassador presented to the Mughal emperor was expected to offer an acceptable form of greeting- either by bowing deeply or kissing the ground, or else to follow the Persian custom of clasping one's hands in front of the chest. Thomas Roe, the English envoy of James I, simply bowed before Jahangir according to European custom, and further shocked the court by demanding a chair.

## CUET 2022 QUESTION PAPER

**Read the passage and answer the questions.**

We say it is our firm and solemn resolve to have an independent sovereign republic. India is bound to be sovereign, it is bound to be independent and it is bound to be a republic... Now, some friends have raised the question: "Why have you not put in the word 'democratic' here?" Well, I told them that it is conceivable, of course, that a republic may not be democratic but the whole of our past is witness to this fact that we stand for democratic institutions. Obviously we are aiming at democracy and nothing less than a democracy. What form of democracy, what shape it might take is another matter. The democracies of the present day, many of them in Europe and elsewhere, have played a great part in the world's progress. Yet it may be doubtful if those democracies may not have to change their shape somewhat before long if they have to remain completely democratic. We are not going just to copy, I hope, a certain democratic procedure or an institution of a so-called democratic country. We may improve upon it. In any event, whatever system of government we may establish here must fit in with the temper of our people and be acceptable to them. We stand for democracy. It will be for this House to determine what shape to give to that democracy, the fullest democracy, I hope. The House will notice that in this Resolution, although we have not used the word 'democratic' because we thought it is obvious that the word 'republic' contains that word and we did not want to use unnecessary words and redundant words, but we have done something much more than using the word. We have given the content of democracy in this Resolution and not only the content of democracy but the content, if I may say so, of economic democracy in this Resolution. Others might take objection to this Resolution on the ground that we have not said that it should be a Socialist state. Well, I stand for socialism and, I hope, India will stand for Socialism and that India will go towards the constitution of a Socialist State and I do believe that the whole world will have to go that way.
