|---|--------------|
| A | A, D, B only |
| B | A, C, D only |
| C | B, D, C only |
| D | C, A, B only |

Passage:

Read the passage given below and answer the questions based on it:

Historically, states have tried to establish and enhance their political legitimacy through nation-building strategies. They sought to secure... the loyalty and obedience of their citizens through policies of assimilation or integration. Attaining these objectives was not easy, especially in a context of cultural diversity where citizens, in addition to their identifications, with their country, might also feel a strong sense of identity with their community - ethnic, religious, linguistic, and so on. Most states feared that the recognition of such difference would lead to social fragmentation and prevent the creation of a harmonious society. In short, such identity politics was considered a threat to the state unity. In addition, accommodating these differences is politically challenging, so many states have resorted to either suppressing these diverse identities or ignoring them on the political domain. Policies of assimilation - often involving outright suppression of the identities of ethnic, religious or linguistic groups - try to erode the cultural differences between groups. Policies of integration seek to assert a single national identity by attempting to eliminate ethno-national and cultural differences from the public and political arena, while allowing them in the private domain. Both sets of policies assume a singular national identity.

Question:

Sri Lanka: Sinhala language is the official language. This example reflects which kind of policy?

- | | |
|---|-----------------|
| A | Regionalistic |
| B | Assimilationist |
| C | Nationalist |
| D | Isolationist |

Section Name:SOCIOLOGY

Question:

What is the main objective of policies of integration and assimilation?

- | | |
|---|---|
| A | Not to eliminate cultural diversity but to establish dominant culture |
| B | To eliminate cultural diversity and to establish dominant groups' culture |
| C | To establish the culture of minority group |
| D | To protect cultural diversity and culture of minority group |

Section Name:SOCIOLOGY

Question:

Out of the following which policy insist that the public culture to be restricted to a common national pattern while all 'non-national' cultures are to be practiced within private sphere.

- | | |
|---|------------------------|
| A | Integrationist Policy |
| B | Assimilationist Policy |
| C | Isolationist Policy |
| D | Nationalist Policy |

Question:

What kind of National identities does integrationist and assimilationist strategies tries to establish?

- | | |
|---|--------------|
| A | Heterogenous |
| B | Multiple |
| C | Dual |
| D | Singular |

Section Name:SOCIOLOGY

Question:

Why do states fear cultural diversity?

- | | |
|---|--|
| A | It does not lead to fragmentation and present creation of harmonious society |
| B | it leads to creation of harmonious society |
| C | It leads to social fragmentation and prevent creation of harmonious society |
| D | It is not considered threat to State Unity |

CUET 2022 QUESTION PAPER

People may damage a bus and attack its driver when the bus has ran over a child. This is an isolated incident of protest/ Since it flares up and dies down it is not a social movement. A social movement requires sustained collective action over time. Such action is often directed against the state and takes the form of demanding changes in state policy or practice. Spontaneous, disorganised protest cannot be called a social movement either. Collective action must be marked by some degree of organisation. This organisation may include a leadership and a structure that defines how members relate to each other, make decisions and carry them out. Those participating in a social movement also have shared objectives and ideologies. A social movement has a general orientation or way of approaching to bring about (or to prevent) change. These defining features are not constant. They may change over the course of a social movement's life. Social movements often arise with the aim of bringing about changes on a public issue, such as ensuring the right of the tribal population to use the forests or to the right of displaced people to settlement and compensation. Think of other issues that social movement have taken up in the past and and present. While social movement seek to bring in social change, counter movements sometimes arise in defense of status quo.

Read the passage above and answer the following questions.

CUET 2022 QUESTION PAPER
